- Contains essential vitamins
- Strengthens hair root
- Moisturizes dry hair
- Protects against damaging environmental factors
- Adds body and shine
- Safe for all hair types

## KEY INGREDIENTS:

**Shea Butter**  
Conditions the scalp and shields against damage from heat tools and environmental factors

**Procapil**  
Fights follicle ageing and protects against hair loss

**Apigenin**  
Increases circulation to the scalp and provides a pathway for nutrients to penetrate the follicles

**Biotin**  
A form of Vitamin B that is essential for cellular growth and promoting a healthy body function and cell renewal

**Oleonic Acid**  
A naturally occurring triterpenoid found in plants, that protects cells against stress, making it less susceptible to hair loss

## HOW TO USE:

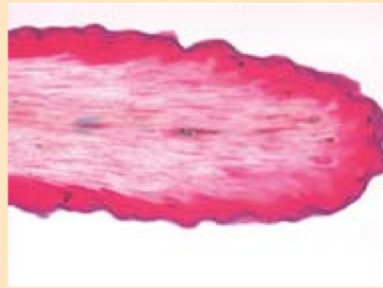

Apply GrowFast™ Shampoo to wet hair and work into a rich lather. Massage scalp vigorously for 3-4 minutes in all directions. Rinse thoroughly. Follow with GrowFast™ Conditioner. Use daily as required.

## CLINICAL STUDIES:

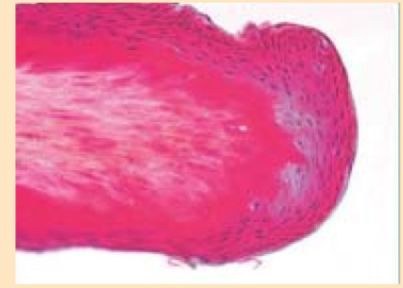

Clinical studies were performed on 18 volunteers using PROCAPIL™\* and 17 volunteers with a placebo over a duration of 4 months. At the conclusion of the study, 67% of the volunteers experienced an increase in their anagen hair. Hair bulb cells were structured to be thicker and more able to provide optimum anchoring. PROCAPIL™ has a repair and protection effect on the structure components of the hair follicle, slowing down the aging process.

## CUSTOMER REVIEWS:

"I have never been able to grow my hair longer than just barely below my ears because it would take one year to get to that point and the in between stage is a horrible thing. With Grow Fast it only took 8 months to be down to my shoulders and now it is 3 inches below my shoulders. It works."

- Bev J.

"I love this product it fulfills its name hair is not falling out and its growing. This product I recommend it 100%."

- Erica V.

"Absolutely loved it! It smells great and leaves my hair feeling much healthier. I wash my hair every 3 days."

- Samantha

"I've used the shampoo for about two months now and I'm very happy. My hair started growing at a much faster rate after a month of use. The shampoo lathers well and smells great. I would recomend to anyone who wants to grow out their hair :)"

- Gaja W.

## FOR BEST RESULTS:

- Use with a natural hair oil
- When showering, first wash hair with GrowFast™ Shampoo followed by GrowFast™ Conditioner. Leave Conditioner on for at least 5 minutes while finishing the rest of your shower.
- Rinse your hair with cold water to help stimulate your scalp
- Trim your hair about a ½ inch every 3 months to get rid of split ends and keep hair healthy
