BENEFITS:

A firty, sexy pout with Renew™ Lip Plumper appears within only 3 minutes off application. Achieve a sexy pout without the pain of injections while reducing the appearance of fine lines and lip wrinkles. Once you apply the lip gloss, you will feel an invigorating, peppermint-like sensation as your lips gain a sexy pout and beautiful color. As your lips plump, their natural color is enhanced, resulting in a lip color that compliments your skin tone and complexion perfectly!

Fine lines and lip wrinkles disappear with continued use over time. Additional long term benefits include softer, more hydrated lips. As collagen beneath the lips is restored, lips maintain their fuller, sexy pout.
